

# QCD-2315 Series 550TVL Fixed Internal Colour Dome Camera

Ultra high resolution during  
day time, exceptionally  
clear image at night

- Ultra High Resolution Integrated Mini Dome Camera
- Built-in 3.8-9.5mm DC Iris Varifocal Lens
- Aesthetically Designed Dome Housing
- Day & Night (IR Cut Filter) & UTP Transmitter Options

#### FEATURES:

- High Sensitive 1/3" SONY SuperHAD™ CCD
- Ultra High Resolution 550 TV Lines
- Min. Illumination: 0.1 Lux (QCD-2315PVF)
- AGC, BLC, Flickerless On/Off, AWB
- 100mm Dome Size
- Service Video Out
- 24VAC/12VDC Dual Voltage
- 3-Axis Mechanism for Free Lens Rotation

The QVS range of CCTV products is designed to provide high quality, cost effective video surveillance for a wide range of applications.

With this in mind we bring you the new QCD-2315 Series, 550TVL Fixed Colour Dome Camera, specifically designed for internal installations where the combination of high resolution images and aesthetic design are vital.

Being overt, yet discreet and stylish, the QCD-2315 range sits in a unique position giving peace of mind without undue intrusion. The Cameras' 1/3", 550TVL Sony HyperHAD™ CCD and the securely encased 3.8-9.5mm Varifocal Direct Drive Lens delivers crystal clear images and excellent colour rendition.

The QCD-2315 Internal Dome Camera range has been designed to combine good looks with the very latest features including the 3-Axis Mounting Mechanism which enables diversity in mounting location and camera positioning. The mechanism offers increased flexibility, easily allowing the field of view to be adjusted to obtain the view required under the most awkward of environments ensuring satisfaction to both the installer and user every time.

Available in both Colour and true Day/Night (removable IR cut filter) options.

# QCD-2315

## Series 550TVL

### Fixed Internal Colour Dome Camera

#### CAMERA FEATURES

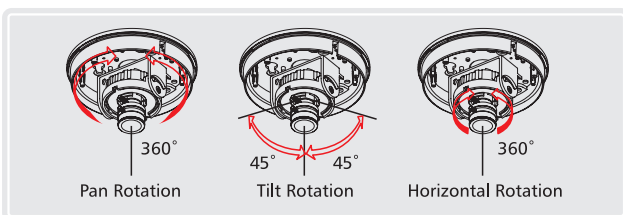

The QCD-2315 Series Dome Cameras are reliable and robust and are ideally suited for applications where the look and ambience of the camera within its surroundings is paramount, and where discreet surveillance and high quality performance are equally important such as hotels, reception and lobby areas.

#### EASE OF INSTALLATION AND SERVICE

The QCD-2315 Series is also fitted with a service jack output to enable technicians to adjust the field of view and perform routine maintenance without interrupting the primary image at its monitoring or recording point.

#### 3-AXIS CAMERA ADJUSTMENT

The QCD-2315 Series has to be the easiest dome camera to install to date. You can position the camera module easily via it's 3-Axis Camera Adjustment Mechanism and it's Varifocal lens means that there are no tools required to focus the camera.
