

QVS-MONITORS

Security LCD Display Monitors

- Computer and Video Inputs
- Protective Screen Shield (A17A1- GLASS Model)
- Robust Construction
- Rack Mountable

QVS presents high-contrast active matrix Liquid Crystal Display (LCD) monitors available in 15", 17" and 19" screen sizes. Combining a thin, sleek design with superior image quality and high brightness, the thin-film transistor (TFT) LCD panels provide crisp, clear and bright images with a wide viewing angle.

QVS LCD monitors have the added advantages of low power consumption, light weight and small size, requiring less desk space. All models have an automatic setup function making installation easy and simple.

Perfect for use in a wide variety of work environments, from security and surveillance, to classrooms, warehouses, or even public display, QVS LCD Display monitors include a number of quality features designed to suit your needs.

FEATURES:

- Looping BNC inputs
- Ideal for Security Applications
- 3D comb filter High Quality Motion
- 4H comb filter for High Image Quality
- 3D Noise Reduction

Video and Computer Inputs - with VGA and Composite (BNC) inputs, these displays are compatible with almost any digital recording device or computer.

Great Picture Quality – QVS LCD Display Monitors feature high brightness and contrast ratio levels, as well as super fast response times for high quality image playback.

Screen Protection - The shock and scratch resistant tempered glass panel (A17A1- GLASS Model) protects the LCD screen without sacrificing picture quality.

QVS products are the premier choice for virtually any application.
